RETURN RECEIPT REQUESTED

Ms. Siona Briley, STP Project Manager
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East Building 1
Santa Fe, New Mexico 87505-6303

Subject: 15- Day Notification, Proposed Deletion of Waste from the Los Alamos National Laboratory, Site Treatment Plan, Federal Facility Compliance Order, Los Alamos National Laboratory

Dear Ms. Briley:

The purpose of this letter is to provide a 15-day notification, described below, before commencement of the Site Treatment Plan (STP) deletion activity. In the letter dated December 4, 2009, the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB) approved the proposal submitted by Triad National Security, LLC, and the National Nuclear Security Administration (Triad/NNSA), collectively the "Respondents" for the removal of 10 experimental test vessels of mixed transuranic waste (MTRU) inventory from the STP in accordance with Section IX of the Federal Facility Compliance Order (FFCO).

NMED's concurrence was dependent upon receiving written notification from the Respondents at least 45 calendar days before the start of recovery operations and subsequently receiving written notification that a vessel is to be removed from the STP at least 15 calendar days before the vessel is transferred to the

recovery facility at the Chemistry and Metallurgy Research (CMR) building for processing. As required per NMED-HWB's December 4, 2009, letter, the Respondents will provide NMED-HWB written notification at least 15 calendar days before each vessel is transferred to the CMR for processing. In accordance with that notification requirement, this letter informs NMED-HWB that the Respondents expect to ship the ninth vessel to the CMR no sooner than January 21, 2019.

In accordance with the requirements of Section XX of the FFCO, "*Documents, Information, and Reporting Requirements*," we certify, as the project managers responsible for overseeing the implementation of the Site Treatment Plan for the Los Alamos National Laboratory, which, to the best of our knowledge and belief, the information in this document is true, accurate, and complete.

If you have any questions, please contact Victoria Baca at (505) 665-9958, or by email at vbaca@lanl.gov, or Adrienne L. Nash at (505) 665-5026, or by email at adrienne.nash@nnsa.doe.gov.

Sincerely,

Victoria R. Baca, STP Project Manager
Waste Management Program
